

WHAT IS ABU DHABI SUSTAINABILITY WEEK?

Abu Dhabi Sustainability Week (ADSW) is a global initiative championed by the UAE and its clean energy powerhouse Masdar to accelerate sustainable development and advance economic, social and environmental progress.

For over 15 years, ADSW has reinforced the UAE's commitment to addressing global challenges as a responsible leader on climate action, energy transition and sustainable economic development.

Born from a firm belief that global challenges can only be addressed through inclusive

engagement, ADSW has brought together heads of state, policymakers, industry leaders, investors, entrepreneurs, and youth to discuss, engage and debate climate action and innovations that will ensure a sustainable world.

ADSW 2023 will play a critical role in ensuring momentum towards COP28, taking place in the UAE, by convening the global community and facilitating impactful dialogue to translate pledges into practical outcomes for a net zero future and sustainable climate progress for people and planet.

ABOUT ABU DHABI SUSTAINABILITY WEEK

Legacy of positive change:

- ADSW is a global initiative established in 2008 by the UAE and its clean energy powerhouse Masdar.
- Its purpose is to accelerate sustainable development and advance economic, social and environmental progress.
- For over 15 years, ADSW has reinforced the UAE's commitment to addressing global challenges as a responsible leader driving climate action, energy transition and sustainable economic development.
- The UAE is a pioneer in driving the sustainability agenda, being the first country in the MENA region to adopt and sign the Paris Agreement and announce a Net Zero by 2050 Strategic Initiative.
- ADSW hosts the Zayed Sustainability Prize, the UAE's pioneering global award in sustainability. The Zayed Sustainability Prize Awards Ceremony at ADSW recognizes and rewards the achievements of those driving impactful sustainability solutions and changing the lives of the most vulnerable members of society for the better.

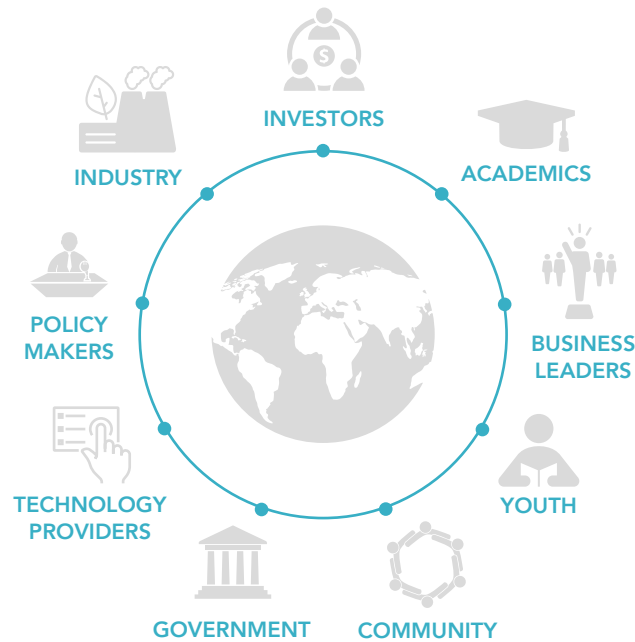

Inclusive engagement:

- Rooted in the firm belief that global challenges can only be addressed through collaboration, ADSW has brought together heads of state, policymakers, industry leaders, investors, entrepreneurs, and youth, to discuss, engage in, and debate climate action and innovations that will ensure a sustainable world.
- ADSW is an inclusive platform engaging a wide range of stakeholders through its programs. These include the Zayed Sustainability Prize, IRENA Assembly, Youth for Sustainability, WiSER Annual Forum, and the Atlantic Council Global Energy Forum.

Paving the way to COP28:

- ADSW 2023 not only strengthens and reinforces the UAE's credentials as a leader on the global climate stage but also represents an important milestone on the road to COP28.
- ADSW 2023 will play a crucial role in driving momentum between COP27 and COP28 by enabling impactful and continuous dialogue between key stakeholders and providing opportunities to translate pledges into practical solutions.
- ADSW will seed the UAE's vision for COP28, featuring a highly curated program of impactful discussions, bold initiatives, and ground-breaking announcements that spur global action toward Net Zero.
- Through its proven legacy and ongoing efforts to drive sustainable development and climate action, the UAE is uniquely positioned to bring the world together at ADSW to accelerate progress on all fronts.
